

Ridmi Ranasinghe

SOFTWARE ENGINEER

Web : ridmiranasinghe.com
Email : ridmikranasinghe@gmail.com
Mobile : (+94) 760680335
Address : Eheliyagoda, SriLanka
Important Links :

A Software Engineer with hands-on experience in full-stack web application development. Proven expertise in designing, developing, and deploying scalable applications using modern frameworks and technologies.Dedicated self learning potentiality. Skilled in collaborative agile environments with a strong foundation in software engineering principles, problem-solving, and delivering high-quality solutions.

WORK EXPERIENCE

Derana MacroLabs : Associate Fullstack Software Engineer
| January 2026 - Present
Digital media and technology division under Derana Macroentertainment (Pvt) Ltd, the digital arm of TV Derana, Sri Lanka

- Contribute to **Ada Derana (Sinhala, Tamil, English)**, a major news platform, developing scalable, high-quality features
- Build and maintain features for **OnePlace**, a centralized Business Management System (BMS) and ERP platform, with a focus on modern frontend architecture and seamless API integration

- **Tech:** Go, NestJs, Typescript/JavaScript (React/NextJS), GCP/AWS,Docker/Kubernetes

Derana MacroLabs : Fullstack Software Engineer
| July 2025 - December 2025 (Internship)

- Developed frontend and backend features across **eTunes**, **Pulse**, and **Mogo Academy** platforms
- Delivered scalable features with emphasis on modern frontend development and API integration

- **Tech:** NestJs, Java, Typescript/JavaScript (React/NextJS)

GeoEdge (pvt) ltd: Fullstack Software Engineer
| September 2024 - March 2025 (Internship)
Open-source software solutions provider specializing in GIS, remote sensing, mapping, and geospatial consultancy

- Contributed to an ERP system built with Spring Boot, Angular, and JHipster, focused mainly on frontend development
- Performed manual and automated testing using Selenium and Playwright

- **Tech:** Apache Kafka, JAVA, Kotlin, Spring Boot, React / Redux and AWS / GCP, Docker/Kubernetes, JHipster, Selenium, Playwright

EDUCATION QUALIFICATIONS

SLIIT | Sri Lanka Institute of Information Technology **Jan 2022 - June 2026**

- BSc (Hons) in Information Technology Specialising in Software Engineering

AREAS OF EXPERTISE

Language

- Java, JavaScript, TypeScript, Python, Go, PHP, C, C++, Kotlin, R

Cloud & DevOps

- AWS, GCP, Docker, Kubernetes

Frameworks & Libraries

- React, Next.js, Node.js, Express.js, NestJS, Spring Boot, Angular, Flutter, Selenium, Axios, Bootstrap, Tailwind CSS

Web Development

- HTML, CSS, JavaScript, RESTful APIs

Database

- MySQL
- MongoDB
- PostgreSQL

ADDITIONAL INFORMATION

- **Volunteering & Extra Curicular Activities :**

Member of the IEEE
Member of the Astronomical Association in School .
Member of Leo Club in SLIIT

- **Awards/Activities :**

Won the 1st Runners-Up at the MS Club Mini Hackathon'24 - **link**

- **Softskills** :

Team Collaboration
Agile Development
Communication
Leadership
Analytical Thinking

PROJECTS

AI-Powered Cardiac Diagnosis Support System (Research)

- Built an integrated clinical decision support platform for cardiovascular diagnosis in resource-constrained settings
- Combined Sinhala clinical conversation analysis, ECG image interpretation, and cardiac lab report intelligence using explainable multi-modal AI reasoning

- **Tech:** Whisper ASR, Sinhala Clinical NLP, CNN, LSTM, RAG, Risk Prediction Models

Cloud-Native Microservices Food Delivery App

- Developed a scalable, containerized food delivery platform using a microservices architecture
- Set up CI/CD-ready deployment workflows for streamlined releases

- **Tech:** Docker, Kubernetes, Node.js, React, MongoDB, REST APIs, CI/CD

Online Employee Management System

- Built a web-based platform for organizing staff information and streamlining core HR administration tasks

- **Tech:** HTML, CSS, Bootstrap, Java

Buying and Selling Platform

- Developed a marketplace system enabling customers and suppliers to trade products
- Implemented inventory tracking and online sales management capabilities

- **Tech:** MongoDB, Express, React, Node.js, Bootstrap, Postman

Waste Management System

- Built a mobile and web solution for waste collection and disposal
- Implemented location-aware reporting and service coordination features

- **Tech:** Flutter, MongoDB, Express, React, Node.js

Human Rights Mobile App — CivicAlert

- Developed a cross-platform civic safety app supporting emergency alerts and real-time notifications on Android and iOS

- **Tech:** Flutter, Firebase, Android, iOS
